

MDI Adapter for New Ventolin Cannisters

NOTE: Arrow indicates flow direction

Koala Medical's MDI adapters remain inline:

- Improves patient safety, reducing the opportunity for cross-contamination.
- Improves patient comfort by reducing the manipulation of the circuit.
- Improves compliance of prescribed medication due to reduced interruptions of patient care.
- Compatible with both plastic and metal canister stems.
- Can be used with or without dose counter.
- Ready to use.
- For single patient use.
- Includes built in tether strap.
